Additional information:

The River Aare, which flows through Bern, is famous for attracting after-work swimmers on summer days. On Thursday, our dinner location is situated right by the river at a spot where it is possible to enter and exit the water for a swim. Feel free to bring your swimsuit and a towel if you would like to enjoy a swim after the conference day.

Please review the safety tips on the following website, as swimming in a river requires attention to important factors such as entry and exit points and daily water conditions:
